D. If Decedent's cremation **does not** involve a funeral establishment or individual licensed pursuant to G.S. 90-210.25(a2)(2):

take possession Decedent's human remains and make arrangements for cremation in accordance with and subject to: (a) the terms and conditions set forth in this Authorization; (b) any applicable state or local laws, rules, and regulations; and (c) the rules and regulations of said Crematory Licensee.

- E. Unless specifically permitted by G.S. 90-210.129(h), cremation will be performed individually. Due to the nature of cremation, valuable materials may not be recoverable. In the event that there are such valuable items I/we wish to retain, it is my/our responsibility to remove them or have them removed from Decedent's remains **prior** to cremation. Body prostheses, dental bridgework, or dental fillings within Decedent's remains may either be destroyed or may not be recoverable. Accordingly, Authorizing Agent(s) represent and warrant to Crematory Licensee that such materials have been removed from Decedent's remains or, if not, that they may be removed from Decedent's remains and disposed of by Crematory Licensee or may be destroyed by cremation.
- F. **Cremation** begins with the placement of the cremation container into the cremation chamber where it is subject to intense heat and flame reaching temperatures of 1400 to 1800 degrees Fahrenheit. I/We hereby authorize Crematory to cremate Decedent's human remains. Following a cooling period, the cremated remains are then swept or raked from the cremation chamber. Cremated remains, depending on the bone structure of the decedent, will weigh approximately 4 to 8 pounds, and are usually white in color, but can be other colors due to temperature variations and other factors.
- G. Cremated remains consist primarily of bone fragments, which are processed or pulverized to permit their placement in an initial container or other suitable container. I/We hereby authorize Crematory Licensee to process and/or pulverize Decedent's cremated remains. Unless another container type is purchased for the cremated remains of Decedent, Crematory Licensee will place the cremated remains in an initial container that may not be recommended for any type of shipment. In the event the capacity of the initial container or any other container is insufficient to accommodate all of the cremated remains of Decedent, a separate initial container will be used and returned pursuant to Paragraph L of this Authorization.
- H. Even with the exercise of reasonable care and the use of Crematory Licensee's best efforts, it is not possible to recover all particles of the cremated remains of Decedent; some particles may inadvertently become commingled with particles of other cremated remains remaining in the cremation chamber and/or other devices utilized to process (pulverize) the cremated remains. I/we hereby authorize Crematory Licensee to dispose of any such residual particles in any lawful manner it deems appropriate.
- I. Unless otherwise specifically approved for cremation or by the manufacturer or proper regulating agency, pacemakers or other mechanical devices may create a hazardous condition when placed in a cremation chamber. Crematory Licensee will not, therefore, cremate any human remains which contain any type of hazardous implanted mechanical device. In the event the remains of Decedent do contain such a device, Authorizing Agent(s) hereby authorize and instruct Funeral Provider or when not applicable, Crematory Licensee, its agents and employees to remove any and all hazardous mechanical devices from Decedent prior to the cremation process. Any such removal must be carried out in accordance to the manufacturer's guidelines and any applicable law or rule.

TO THE BEST OF THE KNOWLEDGE OF AUTHORIZING AGENT(S), THE REMAINS OF DECEDENT:

# DO (\_\_\_\_\_) DO NOT (\_\_\_\_\_) CONTAIN A PACEMAKER THAT IS NOT APPROVED FOR CREMATION BY THE PACEMAKER'S MANUFACTURER OR PROPER REGULATING AGENCY.

AUTHORIZING AGENT(S) CERTIFY THAT TO THE BEST OF HIS/HER/THEIR KNOWLEDGE, THE REMAINS OF DECEDENT:

DO (\_\_\_\_\_) DO NOT (\_\_\_\_\_) CONTAIN ANY TYPE OF HAZARDOUS IMPLANTED MECHANICAL DEVICE.

- J. Crematory Licensee reserves the right to reject a cremation container not suitable for cremation. Remains received in an unsuitable cremation container may be removed prior to cremation and placed in a suitable container; and Crematory Licensee reserves the right to dispose of such noncombustible container(s) at its sole discretion. Crematory Licensee is authorized to remove and discard handles or any other items attached to the cremation container which may cause damage to the cremation chamber.
- K. If no final disposition is given, the cremated remains of Decedent will be held by Funeral Provider or if not applicable, Crematory Licensee, for 30 days before they are disposed of, unless the cremated remains of Decedent are received from Funeral Provider or if not applicable, Crematory Licensee, prior to that time, in person, by Authorizing Agent(s) or his/her/their designee.
- L. I/We authorize Funeral Provider or if not applicable, Crematory Licensee, to return the cremated remains of Decedent according to my/our directive(s) below. I/We understand that the services and obligations of Crematory Licensee shall be fulfilled when the cremated remains of Decedent are returned to the possession and custody of Funeral Provider, if applicable.
